Dear Healthcare Service Provider

**Notice RE: Heritage Health// Namfisa Court Rulings**

It is our great pleasure to inform you that Heritage Health has succeeded in its Supreme Court appeal case against Namfisa.

As hard as it may be to believe, the court ruling vindicates the Fund and confirms the position which we have always held, that the primary cause for the Fund's current predicament stems from the Regulator.

The Fund expects a substantial injection of liquidity subsequent to the court ruling which will support its continued effort to settle the remaining claims backlog.

We urge you to remain patient. We will surely settle what is owed.

Greetings and warmest regards,

Mrs. Valeria Muchero

Principal Officer
